DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 2, 4-8 and 10-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. **As per claims 1, 14, 16 and 17 and claims dependent therefrom**, the examiner found no reference in the prior art that disclosed or made obvious a method and corresponding apparatus configured to generate a computed tomography image of a periodically moving organ. The distinction, as highlighted in applicant's response (see pp. 11-14 and in particular, paragraph bridging pp. 12 and 13) is an analysis of data of a moving organ having a plurality of regions, wherein the regions in question are different regions of the organ, and that only one of the regions is analyzed to detect movement artifacts in that one region, and the image of the organ is then reconstructed using only data acquired during the rest phase of that one region, as recited in independent claims 1, 14, 16 and 17.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
